Re: Notice to drill #31-81-X

Dear Mr. Feight:

When we filed our application to drill well #31-81-X, it was our intention to apply for permission to complete this well in the Brushy Basin section of the Morrison formation, or below in the Salt Wash of upper Jurassic.

I am very sorry that we were not clear on this point and respectfully request that you reconsider our application to drill, and complete in any formation except the Dakota sand, the formation in which well #31-72 in the SW NE NE is completed.

Very truly yours,
